Parents: You can play a key role in preparing students for state assessments.
During this testing period, parents are encouraged to:

**Make sure students are in school during review and testing sessions. Avoid
doctor or dental appointments on review or test dates.**

**Stay well-informed about students’ tests. Know their test schedule, results, how
results are used, and how the results will affect grade placement or course
recommendations.**

**If there are major differences between a student’s standardized test scores and
overall school grades, find out why.**

**Encourage students to listen carefully to all test-taking directions given by the
teacher and to ask
questions about any directions that are unclear.**

Make sure students are well-rested on test day.

**Make sure students eat breakfast on the day of the test. Hunger can detract
from a good test performance.**

Encourage students to do their best.
